Martin stirred up the boys down in Kakaako until about fifty are entering this section and he is planning an entry for it on his own account. Martin is showing lots of enthusiasm and is going in to make his part of the parade a big success.

LONE "DAY" MOSQUITO FOUND BY OFFICIALS. The first instance of "day" mosquitoes—the title given those insects of the breed sufficiently bold to face the broad sunlight—that has been reported to the mosquito campaign officials in many months, was brought to Dr. McCoy yesterday.

On investigating the infected premises the officers found a tub containing wriggler-infested water that had been placed there several weeks ago to keep vermin away from a pot of flowers, which rested in the center of the tub. The water was dumped out and the household advised to change the water at least every ten days.

J. WALTER DOYLE

As to extra cars tomorrow night, Superintendent Pratt said he doubted if there will be need for any. However, these may be arranged later, on account of the dance of the Indoor Yacht Club on the Young Hotel roof-garden.

BROWN TO KEEP PLACE ON BOARD. The resignation of Willard E. Brown from the liquor license commission will not be accepted by the Acting Governor. After consultation with Chairman C. H. Cooke, of the commission, who concurs in the decision, Mott-Smith announced this morning that the vacation trip of two or three months' length which Brown contemplated taking need not seriously interfere with his duties as a member of the board, and that he should be retained.

The great bulk of the commission's work is transacted on or about July 1, when the liquor licenses of the county must be passed upon, and little remains to be done during the remainder of the year. The majority of the business for the summer year was recently handled by the board, with Brown sitting at its sessions. Now, says the Acting Governor, his temporary absence will be no disability.

Looks Like War at Park. Kapiolani Park, has all the appearance of a war like camp. The cavalry and artillery commands which will take part in the military tournament arrived early yesterday afternoon after a long hot march from Schofield Barracks. The men pitched their tents with military promptitude and precision, and hundreds of horses and mules were picketed in long lines and the rapid fire guns stationed at the approaches to the camp as they would be during actual war.

Under the eye of Superintendent Young, gangs of men were engaged in putting the race track in condition, their work being interfered with somewhat by ambitious motor cyclists who shot around on their thundering machines in preparation for the races tomorrow.

The military and other sports will be held on the polo field and arrangements have been made for the parking of autos and carriages along one side of the grounds so that they will not interfere with pedestrians.

Space has been allotted to the hucksters and those who wish to put up refreshment stands, but vendors of drinks and peanuts will not be allowed to go through the crowds.

During the military tournament, soldiers will police the grounds, and after this feature, the mounted police will be in charge.

Will Use Real Bullets. Real bullets, so many of them that the firing will sound like Chinese New Year, when the Celestials grow extravagant and set off a dozen packages of fireworks at a time, will be fired by the machine gun platoon of the Fifth Cavalry as a wind-up to its drill at Kapiolani Park the morning of the Fourth. The guns will be pointed out to sea, and it is up to boaters and bathers to keep at a respectful distance while the bombardment is in progress.

The drill of the machine gun platoon will open the military tournament at the park, and Major Jenkins, who will command the Leliueha detachment that is to show the people of Honolulu some army tricks, wants to combine noise with action. The machine guns don't take blank ammunition, so the major has decided to put out flankers on the beach to warn off inquisitive pedestrians, and then let his men practise marksmanship on the melancholy mamalams and hungry hinalaes. Boatmen and bathers had best take warning, and give the water opposite the park a wide berth.

Battery F will represent the First Field Artillery, and will give an exciting section race and drill that is brand new to civilians. Captain Deems commands the battery, and Lieutenants Peyton, Seilech and Bowley are attached to it. Troop C, Fifth Cavalry, Captain Elliott, will give an exhibition drill, including a saber charge, while Troop D, in command of Lieutenant Winnie, will go through the famous "monkey drill." Such stunts as jumping hurdles on four horses are included in the latter.

There are few places in the United States where military stunts of this sort are pulled off. Fort D. A. Russell, Wyo., and Fort Meyer, Va., are about the only posts where tournaments of the kind are at all frequent, and Honolulu people are getting more than their realize in the coming military tournament.

The detachment is expected to pass through the city early this afternoon. The men will go into camp at Kapiolani Park, and will start on the return march July 5. The Fifth Cavalry band accompanies the detachment.

Superintendent Pratt Thinks Company Can Handle the Traffic O. K.

Everything on wheels the Rapid Transit Company can muster will be put on the tracks tomorrow to handle what is expected to be a record-breaking crowd.

Moreover, the Rapid Transit Company officials today announced that the parade tomorrow morning will be given right-of-way, and that while it is in progress on King and on Beretania streets the cars will be stopped.

Superintendent Pratt held a brief conference with J. Walter Doyle this morning and said that the company will have every car out that can carry passengers. It is expected that there will be heavy traffic on every line and all day long. Cars will be run in double- or triple-headers wherever feasible.

As to extra cars tomorrow night, Superintendent Pratt said he doubted if there will be need for any. However, these may be arranged later, on account of the dance of the Indoor Yacht Club on the Young Hotel roof-garden.
